The Chairperson

Kiambu Dairy Farmers Co-operative Society Ltd

P.O. Box 567 – 00900, Kiambu

Dear Sir/Madam,

RE: INTRODUCTION OF JAOSEF AGRO SUPPLIES AND PROPOSAL TO SUPPLY FARM INPUTS TO YOUR MEMBERS

Jaosef Agro Supplies is a Nairobi-based supplier of quality agricultural inputs serving crop and livestock farmers across Kenya. We write to introduce our company to your society and to propose a supply arrangement that would give your members reliable access to genuine farm inputs at competitive prices.

We stock and supply the following product lines, all sourced from licensed manufacturers and distributors and sold in original sealed packaging:

- Livestock and poultry feeds, including dairy meal, calf starter, layers mash and chick mash.
- Animal health and veterinary supplies: dewormers, acaricides, mineral licks and supplements.
- Dairy equipment: milking cans, milk strainers, teat dips and basic milking accessories.
- Fertilisers and certified seeds for fodder and food crops, including Boma Rhodes, Napier cuttings, maize and beans.
- Crop protection products, irrigation supplies and general farm tools.

For co-operative societies we offer consolidated bulk ordering with discounted pricing on feeds and fertilisers, scheduled deliveries to your collection centres, free agronomic and animal-health advice for members, and flexible payment terms for the society on approved accounts. All deliveries come with an itemised delivery note and invoice to support the society's records.

We would welcome the opportunity to meet your management committee, present our full catalogue and price list, and discuss how we can tailor supply to your members' seasonal needs. We are available to visit Kiambu at a date and time convenient to you.

Please contact us on +254 746 804 727 (call or WhatsApp) or at info@jaosefagrosupplies.co.ke to arrange a meeting or request a quotation. Thank you for considering Jaosef Agro Supplies as a partner in serving your members.

Yours faithfully,

Joseph Mwangi
